In accordance with Section 3-9 of the Norwegian Accounting Act, all listed companies are required to prepare consolidated accounts for 2005 in accordance with IFRS, International Financial Reporting Standards (previously IAS, International Accounting Standards).

Financial information in section 1 and 2 refers to the consolidated accounts for DnB NOR ASA and have been prepared on the basis of consolidated accounts according to IFRS principles. Financial information in section 3 refers to operations in the DnB NOR Group business areas according to IFRS. Accounting principles are described in section 1.

Information in section 4 refers to operations in DnB NOR banking group. The application of IFRS is for the time being not allowed when preparing the statutory accounts for the banking group. Section 4 therefore has been prepared on the basis of accounting principles used by the DnB NOR Group up till 31 December 2004 (NGAAP). These principles are described in more detail in the annual report for 2004.

Section 1

DnB NOR- an overview

Financial highlights

3Q05 results

- Pre-tax operating profit up 34 per cent to NOK 3.6 billion (2.7)
- Profit for the period up 37 per cent to NOK 2.7 billion (1.9)
- Expenses cut back to 48.9 per cent of income (56.5)
- Return on equity was 19.5 per cent (16.7)
- Earnings per share were NOK 1.99 (1.47)

Accounting figures according to IFRS. Pro forma figures for the third quarter of 2004 in parentheses.

DnB NOR – Norway's leading financial services group

DnB NOR Group (IFRS)

- Total combined assets

Group strategy

DnB NOR's strategic platform provides important guidelines for business choices. DnB NOR has Norway's largest customer base and is a leader in most Norwegian market segments. This market position provides a sound basis for generating further growth by developing and strengthening customer relationships. The business idea reflects DnB NOR's ambitions:

A local presence and a full range of services are our strengths

DnB NOR will be customers' best financial partner and will meet their needs for financial solutions throughout Norway and in selected areas in the international arena.

In the corporate and retail customer segments, the process of further developing service concepts and a product range closely adapted to individual customer needs is well under way. Improved advisory services and decision-making as close as possible to the customer are important aspects of the strategy. DnB NOR's various business areas cooperate closely to be able to offer customers good solutions at all times. DnB NOR must develop new products and services in step with the market. It is essential to offer solutions that bring convenience to the everyday lives of customers. Both internal and external communication should be open, sincere and easy to understand.

The Group will base growth in the international arena on comparative advantages in the form of competence within various customer segments and industries, special product expertise or established relationships where it is logical to follow the customer outside Norway. DnB NOR has a strong position within asset management in the Nordic region and a leading position in international shipping. In certain other sectors, such as energy and fisheries, the Group has strong expertise and an international presence. Sweden has now been defined as part of the DnB NOR Group's home market. This implies that the Group will channel more resources into and maintain a general presence in the Swedish market, also focusing on products other than asset management, where the Group already has a strong position. The Baltic region is an important and rapidly expanding market where many of DnB NOR's Nordic customers have operations. The establishment of DnB NORD is an important strategic move with the aim to follow customers into one of Europe's most dynamic regions. DnB NOR is the preferred partner for international customers doing business in Norway.

A common value base and a common culture are prerequisites for creating a uniform DnB NOR image in the market. The Group's shared values, team spirit, simplicity and value creation, describe what should distinguish the organisation and work processes both internally and in relation to customers. The process of creating a DnB NOR culture will take several years, but is off to a good start through the work on the Group's strategic platform. Under the heading "This is the way we do things", units throughout the Group have defined what the Group's business idea and values mean for individual units and staff members. These values are also reflected in the leadership principles and in how the Group's brands will be projected in the market.

The Group has specified targets with respect to different stakeholder groups: customers, employees, shareholders and society at large. DnB NOR wishes to deliver products and services that are easily understood and adapted to meet the financial needs of customers. The Group seeks to offer a diversified and challenging workplace and wishes to be perceived as a financial services institution showing social responsibility. Finally DnB NOR wishes to be the preferred alternative for investors giving priority to long-term value creation. The financial targets reflect the aim to create shareholder value. The Group seeks to achieve a return on equity and share price increases that are competitive in a Nordic context.

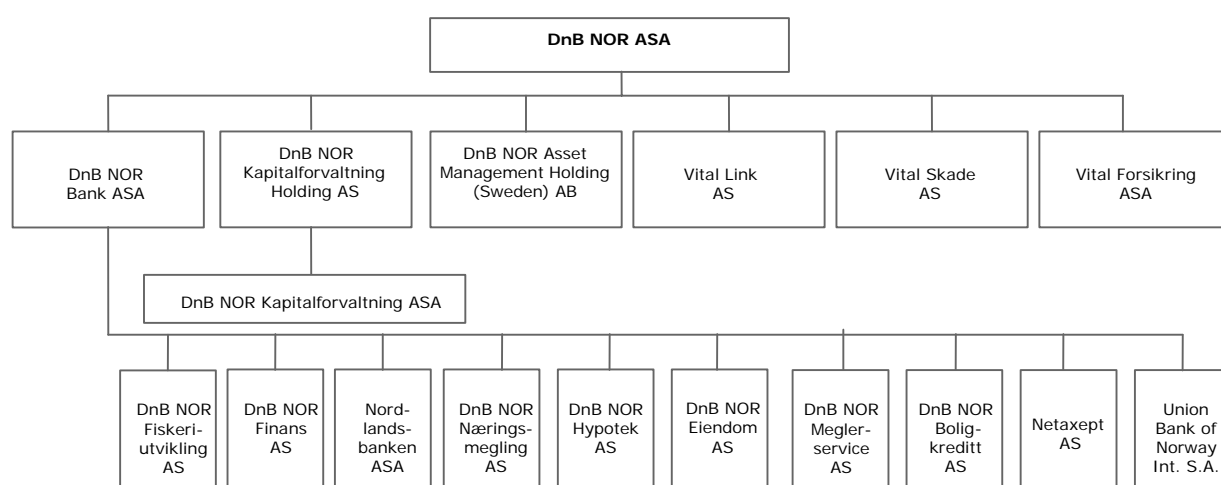

DnB NOR has reviewed its financial target figures in light of the impact of the transition to IFRS. Although the new accounting principles will result in an increase in the cost/income ratio of approximately 2.5 percentage points and an estimated 0.5 percentage points decrease in the return on equity, DnB NOR has decided to maintain its financial targets unchanged. The targets are:

- A return on equity of over 15 per cent
- A cost/income ratio under 50 per cent to be reached by 2008
- A core capital ratio of minimum 7 per cent
- Around 50 per cent of annual profits should be distributed as dividends, provided that capital adequacy remains at a satisfactory level
- DnB NOR Bank ASA's ratings for ordinary long-term debt should be maintained at an Aa level

Legal structure

In accordance with the requirements of the Norwegian regulatory authorities, the banking, asset management and life insurance activities of the DnB NOR Group are organised in separate limited companies under the holding company DnB NOR ASA. Banking activities are organised in DnB NOR Bank ASA, while asset management activities are organised in two companies: DnB NOR Kapitalforvaltning Holding AS and DnB NOR Asset Management Holding (Sweden) AB. Life insurance activities in the form of traditional life and pension products are carried out by Vital Forsikring ASA, while unit linked products are offered through Vital Link AS. Vital Skade AS offers non-life insurance as part of a total product package for retail and corporate clients and operates as an agent for domestic and foreign insurance underwriters. The chart below shows the legal structure of the DnB NOR Group at end-September 2005.

DnB NOR Group - legal structure at end-September 2005

Changes in group structure

Sale of companies

In accordance with the terms of the authorities' concession for the merger, the DnB NOR Group was required to sell certain legal entities. This applied to Elcon Finans, Postbanken Eiendomsmegling, Aktiv Eiendomsmegling and Gjensidige NOR Fondsforsikring. All of these companies had been sold at the end of the first quarter of 2005.

The accounting effects of the sales are shown in the table on page 25.

The description of the business areas in section 3, including financial information, has been prepared as though these companies are no longer part of the Group. In the Group accounts according to IFRS in section 2, accounts for the companies are combined under the item "profit from discontinuing operations after taxes".

The terms of the merger also require the sale of a total of 53 banking outlets. This process is under way and the accounts and descriptions for the business areas include operations in branch offices that have not been sold.

Sale of shares in Follalaks AS

DnB NOR sold its 51 per cent owned subsidiary Follalaks AS in the third quarter of 2005. Gain on the sale of shares in Follalaks amounted to NOK 107 million, see table on page 25.

Sale of shares in Helgelandske AS

DnB NOR sold its 28.8 per cent holding in Helgelandske AS in the third quarter of 2005. Gain on the sale of shares in Helgelandske was NOK 16 million, see table on page 25.

Establishment of new banking group in the Baltic region – DnB NORD

In Norway, DnB NOR sees only a potential for organic growth, while further expansion must take place outside domestic borders. The Baltic region represents a large growth area, and on 21 June 2005, DnB NOR decided to establish a banking group under the name DnB NORD in cooperation with Norddeutsche Landesbank Girozentrale (NORD/LB), with operations in Denmark, Finland, Estonia, Latvia, Lithuania and Poland. The bank's head office will be located in Copenhagen, and an application for a concession was forwarded to the Danish authorities in August 2005.

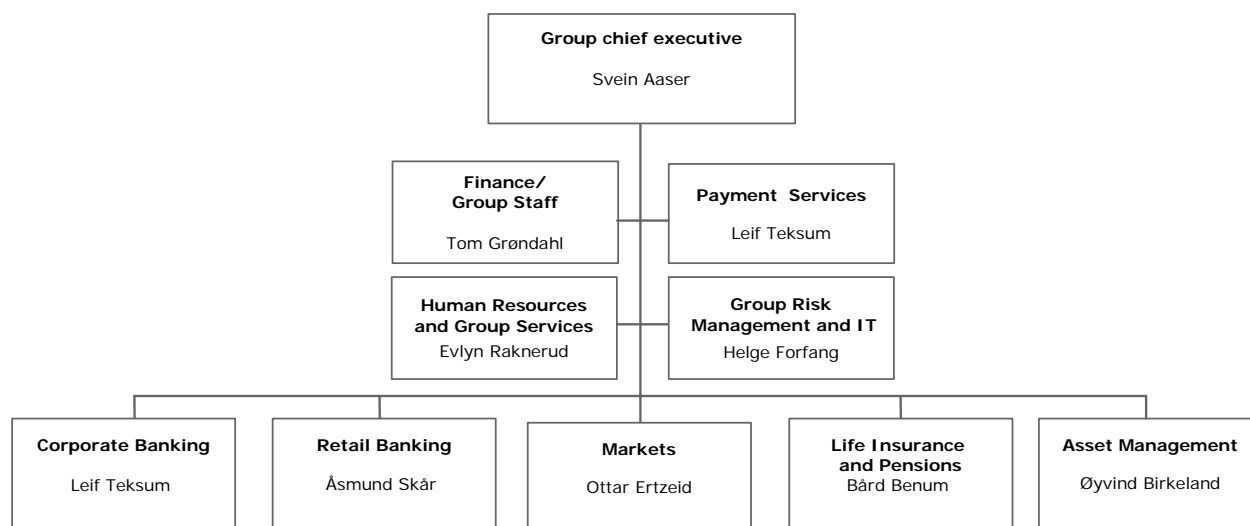

DnB NOR will obtain a significant strategic position in important expanding markets through the agreement. The new entity will be owned 51 per cent by DnB NOR Bank and 49 per cent by NORD/LB. The new bank is scheduled to become operative as from January 2006. DnB NORD will have a sound position in the Baltic Sea region from day one, with 1 450 employees, 111 branch offices, more than 550 000 customers and total assets of EUR 2.7 billion, corresponding to NOK 21 billion. DnB NOR will pay EUR 157.5 million, or NOK 1 240 million, for 51 per cent of the shares in DnB NORD.

As part of the agreement, DnB NOR took over NORD/LB's operations in Sweden in September 2005. This transaction doubled DnB NOR's banking activities in Sweden.

Group business structure

The activities of DnB NOR are organised into five operational business areas and four staff and support units. As independent profit centres, the business areas carry responsibility for customer segments served by the Group, as well as the products offered. The operational structure of DnB NOR deviates from its legal structure as activities in subsidiaries fall in under the business area relevant to the company's operations.

DnB NOR Group - organisation chart at end-September 2005 ¹⁾

1) Reporting structure

The business areas carry responsibility for specific customer segments and key distribution channels, including sales of customer products, marketing, customer service, distribution and risk assessment in addition to product development, production and product pricing. The business areas are also responsible for the most business-critical support functions and have the opportunity to influence other staff and support units in the Group.

Cooperation between the business areas is an important element in DnB NOR's strategy. A wide range of products, services and distribution channels enables the Group to offer customer solutions across business areas.

Financial targets for business areas

Differentiated financial requirements have been set for the business areas, which in combination will help the DnB NOR Group reach its financial targets.

Return on equity is a key target figure for the DnB NOR Group, and thus also important for the business areas. In the internal management and follow-up of business areas, estimated capital requirements based on the Group's total risk model are used to calculate returns. The resulting capital reflects the inherent risk in the business areas' operations and makes it possible to calculate comparable returns for all business areas. The business areas have differentiated targets for return on capital and also have to meet other financial and non-financial targets.

Returns for the business areas are presented in the descriptions of each area, see section 3. In this connection, return on capital is measured as the business area's profits after taxes relative to average capital requirements according to BIS rules (7 per cent capital requirement) for Retail Banking, Corporate Banking and DnB NOR Markets, while for Asset Management and Vital, the calculations are based on average recorded equity. This is consistent with the manner in which most other financial institutions present their business areas.

Internal pricing

DnB NOR's financial management model and operational organisation entail the sale of products and services between the business areas in the Group. The pricing of such intra-group transactions is regulated by internal agreements generally based on market terms.

Services provided by staff and support units will as far as possible be scaled and priced according to use. Joint expenses incurred by group staff units and other group expenditures that cannot be debited according to use, are charged to the business areas' accounts on the basis of special distribution formulas. Costs relating to the Group's equity transactions, including strategic investments, are not charged to the business areas. Nor are the business areas charged with direct shareholder-related expenses and costs concerning the Group's governing bodies.

Certain customers and transactions of major importance require extensive cooperation within the Group. To stimulate such cooperation, net income relating to some of these transactions is recorded in the accounts of all relevant business areas. This refers primarily to income from customer trading in Markets. In the third quarter of 2005, such income totalled NOK 217 million. Double entries are eliminated in the group accounts. For presentation of the business areas, see section 3.

Synergies - IFRS

Cost synergies resulting from the DnB NOR merger

Planned annual cost synergies following full implementation in 2007

Amounts in NOK million	Cost synergies	Staff reductions (full-time positions)	Restructuring costs
Retail Banking	745	740	365
Corporate Banking	150	200	145
DnB NOR Markets	105	100	120
Asset Management ¹⁾	110	70	175
IT and Payment Services	235	85	560
Human Resources and Group Services	160	110	160
Staff units/other operations ^{2) 3)}	355	325	335
Total including Life Insurance and Pensions	1 860	1 630	1 860

- 1) Asset Management and Life Insurance and Pensions include synergies related to IT and office space. With respect to other units, these synergies appear under staff units/other operations (IT and Group Services).
- 2) Includes IT and Payment services, Human Resources, Group Services and Treasury. Some synergies have an overall impact and apply to all business areas. Such synergies are not allocated to specific units.
- 3) Based on IFRS principles, total cost synergy targets for Life Insurance and Pensions are included. Restructuring provisions of NOK 250 million in Life Insurance and Pensions are not included.

DnB NOR's cost synergy targets

Accumulated cost synergies

- Profit and loss effect 2003: NOK 93 million
- Profit and loss effect 2004: NOK 732 million
- Profit and loss effect for the first three quarters of 2005: NOK 1 096 million

Amounts in NOK million

Accounting principles and transition to IFRS

Transitional effects

Up till 31 December 2004, the DnB NOR Group's consolidated accounts were based on Norwegian accounting legislation, accounting regulations issued by Kredittilsynet (the Financial Supervisory Authority of Norway) and Norwegian generally accepted accounting principles. Effects of the transition from NGAAP to IFRS on the Group's profits for the third quarter and first three quarters of 2004 as well as equity as at 30 September 2004 are presented in note 1 in the third quarter report. Effects resulting from the transition to IFRS are described in further detail in note 1 in the first quarter report 2005.

A description of transitional changes resulting from the transition to IFRS is presented in the "Supplementary Information for Investors and Analysts – 1Q05". Furthermore, a description of the transitional effects for selected 2004 profit and loss and balance sheet items is provided in "IFRS – new international accounting principles, restated 2004 figures", issued in April 2005.

Accounting principles

A description of the accounting principles applied by the Group in preparing the accounts for the third quarter of 2005 is found in "Supplementary Information for Investors and Analysts – 1Q05". The DnB NOR Group's annual accounts for 2005 will be presented according to IFRS principles in force as at 31 December 2005. The version of IAS 39 which allows the recording of the institution's issued debt securities not included in the trading portfolio at fair value has yet to be approved by the EU. See description of the fair value option below. Also, the EU has not yet approved stipulations in IAS 39 that open up for using core deposits in portfolio hedging of interest rate risk. The accounts for the third quarter of 2005 have been prepared within the scope of prevailing IFRSs without using the options not yet approved by the EU. However, see description of Eksportfinans ASA below. By employing approved methods for portfolio hedging and assessing fixed-rate loans at fair value, DnB NOR's overall presentation of the accounts will generally be consistent with the Group's interest rate management and actual financial performance.

In June 2005, IASB (International Accounting Standards Board) issued the Fair Value Option (FVO). FVO allows for the recording of liabilities outside the trading portfolio at fair value. The DnB NOR Group will consider applying FVO in order to reduce inconsistency in the accounts resulting from collectively managed balance sheet items being assessed according to different valuation principles. The deadline for implementation was set at 1 September 2005. However, EU approval of the standard is not expected until the fourth quarter of 2005. The DnB NOR Group believes that implementation of the rules requires approval by the EU and will thus start applying the FVO in the fourth quarter of 2005. The use of FVO could result in changes in the DnB NOR Group's opening balance sheet.

The introduction of the FVO and possible amendments to or new interpretations of other standards will result in certain changes in reporting as of the fourth quarter of 2005. The changes are expected to have no material impact on accounting figures.

The accounting principles are applied consistently when consolidating holdings in subsidiaries and associated companies. When incorporating equity from the investment in Eksportfinans ASA, however, the version of IAS 39 - Financial Instruments not yet approved by the EU has been used. Consequently, financial assets and liabilities in Eksportfinans have been recorded at fair value, reflecting the actual underlying financial situation of the company.

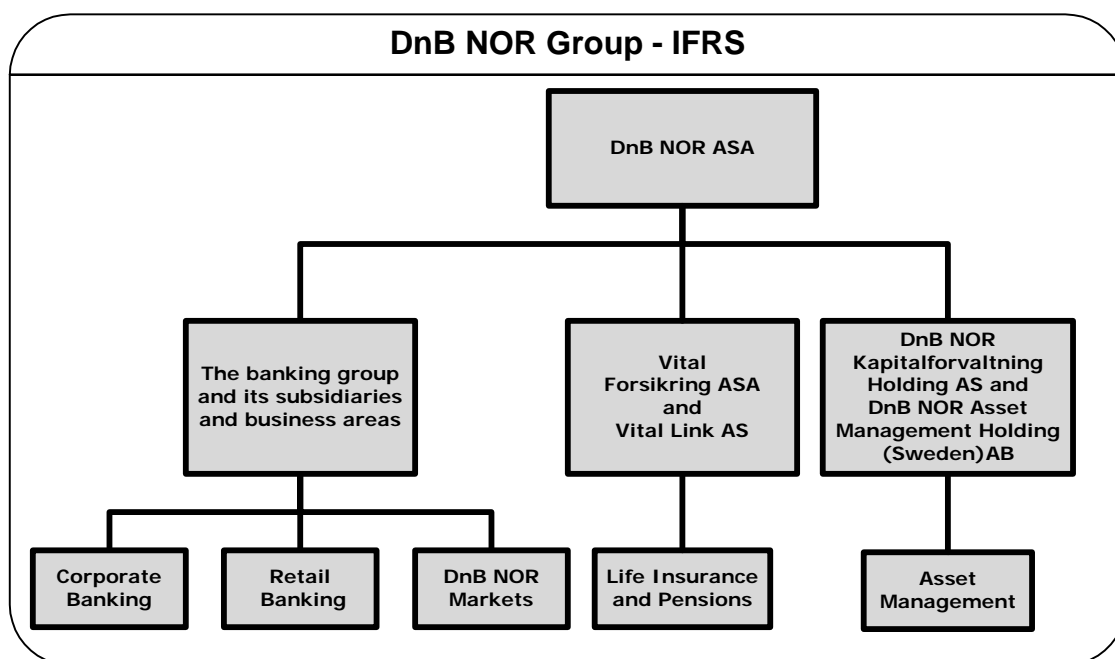

Pro forma accounting figures

DnB NOR Group implemented IAS 39 – Financial Instruments, IFRS 2 – Share-based Payments, IFRS 4 – Insurance Contracts and IFRS 5 – Discontinuing Operations as of 1 January 2005. However, the accounts include pro forma figures for 2004 prepared as if the DnB NOR Group had implemented these standards as of 1 January 2004. Still, the pro forma figures are not fully documented according to requirements in the respective standards. Official comparable figures based on principles in force at any given time will be included in the annual accounts. Due to varying application of principles, however, they will be of limited information value.

1) Excluding allocations to employee funds

Employees - full-time positions – IFRS

- 1) As at 31 December 2003 the number of full-time positions was reduced by 441 through the sale of Elcon, implemented on 30 March 2004, while the sale of Gjensidige NOR Fondsforsikring resulted in staff cuts of eight full-time positions, implemented in the second quarter of 2004. On the other hand, 209 full-time positions from the former jointly controlled companies Gjensidige NOR Driftspartner and Gjensidige NOR Markedsstøtte were transferred to the Group as from 1 January 2004. The net effect of these changes was a reduction of 240 full-time positions.
- 2) As at 1 January 2004 the number of full-time positions increased by 128 as a result of the transition to IFRS.

Number of employees - full-time positions – IFRS ¹⁾

1) Include write-downs on guarantees and loans to credit institutions.

Net impaired commitments - IFRS

For details on losses and non-performing loans according to NGAAP, see Section 4.

Capital adequacy – NGAAP

Development in primary capital and capital ratios – NGAAP

The Financial Supervisory Authority of Norway has not adapted Norwegian capital adequacy regulations to IFRS. For the time being, capital adequacy calculations are based on special consolidation rules for statutory accounts, which thus far are not allowed to be stated according to IFRS.

<i>Amounts in NOK million</i>	30 Sept. 2005	31 Dec. 2004	30 Sept. 2004
Share capital	13 367	13 271	13 220
Other equity	33 620	33 327	29 337
Total equity	46 988	46 598	42 557
Perpetual subordinated loan capital securities ^{1) 2)}	5 590	5 531	5 859
Reductions:			
Pension funds above pension commitments	(1 263)	(1 141)	(1 322)
Goodwill	(4 394)	(4 902)	(5 085)
Deferred tax assets	(732)	(728)	(912)
Other intangible assets etc.	(217)	(299)	(247)
Core capital	45 970	45 059	40 850
Perpetual subordinated loan capital ^{1) 2)}	5 648	5 367	5 829
Term subordinated loan capital ²⁾	14 190	13 538	12 748
Net supplementary capital	19 838	18 905	18 577
Deductions	32	455	291
Total eligible primary capital ³⁾	65 776	63 509	59 137
Total risk-weighted volume	661 802	591 906	591 794
Core capital ratio (%)	6.9	7.6	6.9
Capital ratio (%)	9.9	10.7	10.0
Core capital ratio incl. 50 per cent of profit for the period (%)	7.4		7.3
Capital ratio incl. 50 per cent of profit for the period (%)	10.4		10.4
Core capital ratio excluding life insurance (%)	7.9	8.5	8.1
Capital ratio excluding life insurance (%)	9.9	10.7	10.2

- 1) Perpetual subordinated loan capital securities can represent up to 15 per cent of core capital. The excess will qualify as perpetual supplementary capital.
- 2) Calculations of capital adequacy include a total of NOK 578 million in subordinated loan capital in associated companies, in addition to subordinated loan capital in the Group's balance sheet.
- 3) Primary capital and nominal amounts used in calculating risk-weighted volume deviate from figures in the DnB NOR Group's accounts as a different consolidation method ("pro rata consolidation") is used in calculating capital adequacy. See also comments above the table.

For information on capital adequacy in the bank and banking group, see page 81.

Taxes – IFRS

The DnB NOR Group's tax charge for the third quarter of 2005 was NOK 888 million, based on an anticipated average tax rate of 25 per cent of pre-tax operating profits. After the transition to IFRS, taxes on insurance operations are classified as taxes for the DnB NOR Group. In accounts prepared on the basis of NGAAP, the DnB NOR Group incorporated profits from life insurance operations according to the equity method, whereby taxes were netted against income.

Section 3

DnB NOR Group - business areas according to IFRS

Business areas – extracts from profit and loss accounts - IFRS

The activities of the DnB NOR Group are organised into five functional business areas and four staff and support units. The business areas are set up according to the customer segments served by the Group, as well as the products offered.

Selected profit and loss figures for the business areas have been prepared on the basis of internal financial reporting for the functional organisation of the DnB NOR Group. The figures are based on a number of assumptions, estimates and discretionary distribution.

The transition to IFRS has no impact on the Group's strategy or the business and operative management of the DnB NOR Group.

The DnB NOR Group's income, expenses and balance sheet volumes are allocated to the business areas. Some of the net income generated in DnB NOR Markets related to foreign exchange/ treasury instruments, sales of securities in the primary market, as well as custodial services, is also included in the net other operating income of Retail Banking and Corporate Banking.

2) Based on nominal values.

3) Return on capital is calculated on the basis of recorded equity.

4) Figures for 2004 are as at 31 December and pro forma.

5) As the transition to IFRS has resulted in certain companies being reclassified as fully consolidated, four full-time positions in Corporate Banking and 21 in the Group Centre have been included as at 30 September 2005. Figures for 2004 have been restated accordingly.

Corporate Banking

Corporate Banking serves Norwegian enterprises in all segments, Swedish medium-sized and large corporates and international businesses where we have, or can build, up a competitive advantage based on our relationships, expertise or products.

DnB NOR holds a strong position in all segments of the Norwegian corporate market, and is one of the world's leading shipping banks. Corporate Banking is organised in seven divisions and the two subsidiaries DnB NOR Finans and Nordlandsbanken. Leif Teksum, group executive vice president, heads the business area.

DnB NOR Corporate Banking aims to be the customers' best partner, meeting their needs for financing solutions throughout Norway, Sweden and in selected areas in international markets.

Norway and Sweden are the prime targets for market activities and growth. Corporate Banking also offers international services to shipping and energy clients around the globe. Further international expansion will come within shipping, energy and certain other sectors where competitive advantages and a substantial knowledge base provide growth potential.

Comments to the financial performance in the first three quarters of 2005

- Corporate Banking showed healthy performance in a market characterised by intensifying competition. There was a rise in total income, while non-interest income and reduced costs compensated for narrowing spreads. Sound portfolio quality coupled with a favourable economic climate ensured a continued low level of write-downs on loans.
- There was a slight decrease in net interest income from operations in the first three quarters of 2005 compared with the year-earlier period. Rising lending and deposit volumes compensated for narrowing spreads, but exchange rate movements also had a negative impact on ordinary net interest income.
- The average combined spread was 2.02 per cent in the first three quarters of 2005, compared with 2.18 per cent in the corresponding period in 2004. Portfolio quality improved further in the first three quarters of 2005. Intense competition in the market caused continued pressure on spreads. Pricing reflected credit risk.
- Net other operating income was up NOK 461 million from the first three quarters of 2004. Due to higher market activity, there was a positive trend in income from interest products, corporate finance services, custody and syndication. However, income from payment transfers and margins on guarantees was reduced.
- Corporate Banking gained NOK 198 million on the sale of assets in Brazil in the third quarter of 2005.
- Net write-downs on loans totalled NOK 117 million in the first three quarters of 2005. Net gains on fixed and intangible assets totalled NOK 495 million in the same period.

(Pro forma accounting figures prior to 2005)

- Average lending and guarantees to customers increased by NOK 19.6 billion from the first three quarters of 2004 to the corresponding period of 2005. Adjusted for exchange rate movements, there was an increase of NOK 27.0 billion in loans and guarantees from the first three quarters of 2004 to the corresponding period in 2005.
- Average deposits were up NOK 20.5 billion from the first three quarters of 2004 to the first three quarters of 2005.
- A total of NOK 129.1 billion in syndicated credits was arranged for customers, in cooperation with DnB NOR Markets, in the first three quarters of 2005. Furthermore, NOK 62.3 billion in commercial paper and bonds was issued in the same period.

Customers and market developments

- DnB NOR is the leading financial institution in the market for large Norwegian corporates. In addition to the Norwegian market, Corporate Banking is offering services in New York, London, Singapore, Copenhagen, Hamburg and Helsinki. In Sweden, our new home market, we have high growth ambitions. It has been decided to establish a full-service branch in Shanghai, which is currently at the planning stage.
- The bank maintained its position in the Norwegian SME market in the first three quarters of 2005. A total of 6 400 new clients were acquired over this period. Through a wide distribution network, DnB NOR offers customers local and regional expertise as well as national sector analysis and a broad product range.
- Corporate Banking has launched new customer loyalty programmes for SME clients in 2005. The programmes 'Partner' and 'Partner pluss' include agreements on the use of Internet banking applications and credit cards as well as favourable prices on a number of the Group's products. The new initiatives aim to strengthen Corporate Banking's offering to this customer segment.
- Statutory occupational pension schemes will be introduced from 2006. To prepare for this, DnB NOR has launched new life insurance products for its corporate customers. The Group's broad regional network as well as telephone will be used to distribute the new product, which is delivered by Vital.
- DnB NOR is committed to maintaining and further enhancing a strong local presence. Local management and employees have extensive pertinent expertise and are authorised to grant credits that meet the requirements of the SME segment as well as most of the larger clients.
- More than 74 000 customers make use of DnB NOR's extensive range of Internet services and Internet-based financial products, and more than 1 million visits to the Internet banks' corporate pages are registered each month. A new and improved Internet bank for corporate clients will be launched by the end of 2005 and all clients will be given access to an increased range of Internet services. Product development will continue, as we strongly believe in providing our clients with first-class Internet services.
- Nordlandsbanken has enhanced DnB NOR's position in the northernmost parts of Norway. The subsidiary serves the county of Nordland and operates under the brand name Nordlandsbanken.

1) Excluding loans to and deposits with credit institutions, net impaired commitments and loans included in the Group's balance sheet that are syndicated to Eksportfinans.

Development in lending volumes by risk classification ¹⁾

NOK billion

1) Based on DnB NOR's risk classification system where 1 represents the lowest risk and 10 the highest risk. The volume represents the expected outstanding amount in the event of default.

Organisation and distribution

Corporate Banking is organised into seven divisions:

- The Nordic Corporate Division and the International Corporate and Institutions Division serve large Norwegian corporates, the public sector, international companies that do business in Norway, international customers in the oil and energy sectors as well as financial institutions.
- The Shipping Division serves Norwegian and international shipping, offshore and maritime logistics companies.
- Regional Division East and Regional Division Coast serve businesses in two different segments based on geographical location.
- To strengthen the Group's new initiatives, especially in Sweden, a separate division has been established to cover operations in Sweden, Finland, Denmark and Germany.
- The Business Support Division is divided into customer support, credit and collateral administration, marketing and Internet development departments as well as management support.

Products

Corporate Banking offers customers a broad range of financial services, including lending, bond issues, syndicated loans, deposits, cash management, FX/treasury products, corporate finance and acquisition finance, either directly or in cooperation with DnB NOR Markets.

Through DnB NOR Markets Inc. in the US, DnB NOR offers investment banking services, including mergers and acquisitions and advisory services, to international clients, particularly in the shipping and energy sectors.

Employees

- One of Corporate Banking's competitive advantages in the domestic market is the considerable expertise of the employees with regard to local business, specific industry knowledge, credit risk, customer needs and product offerings. Corporate Banking has a broad competence base and is committed to continuous development. Competence training has top priority and particular emphasis has been placed on systematic specialised training in credit rating and risk and profitability analyses. Competence is also being strengthened in areas that enable Corporate Banking staff to offer customers strategic advice. Corporate Banking believes that competence training will help underpin the growth strategy.
- The integration of the two financial services groups is ahead of schedule in Corporate Banking, and staff synergies corresponding to 208 full-time positions had been achieved by end-September 2005.
- At end-September 2005, the business area had a staff of 1 791 full-time positions, with 1 642 in Norway, of which 550 in subsidiaries, as well as 149 full-time positions in international units.
- Incentive structures and balanced scorecards are tailored to the goals of the different divisions. In order to maximise performance and attract the best account officers, remuneration varies from division to division.

Cooperation with other group entities

Through extensive cooperation with other business areas and support functions in the Group, particularly within corporate finance and FX and interest rate instruments, corporate customers are offered a broad range of financial services and life insurance and pension products.

Business profile

- Serving large Nordic corporates, the public sector, international companies that do business in Norway, international customers in the oil, energy, TMT and pulp & paper industries as well as financial institutions.
- DnB NOR is market leader in the large corporate segment in Norway. The majority of Norway's largest corporations use DnB NOR as their lead banker. In addition, DnB NOR has extensive interaction with most of the other institutions in this segment.
- Commercial real estate broking services are offered through the subsidiary DnB NOR Næringsmegling.
- DnB NOR Hypotek offers hypothecary financing of commercial real estate. Lending volume was NOK 16.8 billion at end-September 2005.

Business profile

- Provides commercial and investment banking services to high-quality Norwegian and international shipping and offshore clients from the Group's offices in Oslo, Bergen, London, New York and Singapore.
- The Shipping Division aims to achieve satisfactory growth in risk-adjusted profitability by maintaining third place among international shipping banks. The division aims to be the preferred strategic discussion partner for clients, expand its client base through further development of the logistics and LNG portfolio and strengthen its market position in Germany and the Nordic countries. Competence development will continue.

1) Figures as at 30 September 2005. Percentages as at 30 September 2004 in parentheses.

Business profile

- Serving more than 85 000 businesses divided into two segments: large companies and small and medium-sized enterprises.
- Service is provided by a broad regional network, as well as over the telephone and via the Internet.

The priorities of clients served by these two divisions when choosing their bankers are local presence combined with the expertise of a major bank. DnB NOR has financial services centres throughout Norway that offer a broad range of products and services and have considerable know-how that is pertinent for the customers. DnB NOR has a sound platform for strengthening its position as the preferred provider of financial products and services for these customer segments.

Nordlandsbanken – Corporate Banking - NGAAP

Average volumes

Amounts in NOK billion	3Q05	2Q05	1Q05	4Q04	3Q04	Jan. - Sept.

Business profile

- Corporate Banking in Nordlandsbanken serves businesses and the public sector in the county of Nordland.
- Nordlandsbanken is represented through 17 branches in Nordland and holds a leading position in the corporate segment.
- Nordlandsbanken aims to be the preferred financial partner for companies in Nordland by meeting their needs for financial solutions through local expertise and as part of a large national financial institution.

DnB NOR Finans - NGAAP

Average volumes

Amounts in NOK billion	3Q05	2Q05	1Q05	4Q04	3Q04	Jan. - Sept.	
						2005	2004
Net lending to customers	21	20	19	18	17	20	17

Business profile

- DnB NOR Finans is one of Norway's leading finance companies.
- The company meets customer requirements for administrative, financial and risk-reducing services related to investments and operations.
- Business operations focus mainly on leasing, leasing concepts for Information and Communications Technology (ICT), factoring, motor vehicle financing and Autolease car fleet management (Norway and Denmark).
- DnB NOR Finans has a strong local presence through 14 branches, most of which have the same location as DnB NOR Bank.
- There was a 27 per cent increase in new leasing and loan contracts in the first nine months of 2005 compared with the corresponding period in 2004.
- The value of processed factoring invoices was up 19 per cent for the first three quarters of 2005 relative to the corresponding period in 2004.

Retail Banking

Retail Banking, serving private customers and small companies under the main brand names DnB NOR, Postbanken and Nordlandsbanken, is Norway's largest retail bank. Åsmund Skår, group executive vice president, is the head of the business area. Retail Banking aims to maintain its leading market position and stand out as the customers' best financial partner.

Integration proceeded according to plan with respect to reductions in staff numbers as well as the number of branches. The integration of branches in DnB NOR has been completed and the number of branches have been reduced to 194 by moving geographically overlapping units into joint premises.

There are sound prospects for the Norwegian economy in 2005, with an anticipated moderate increase in interest rate levels, a slight improvement in the labour market and rising housing investment. This will provide the basis for continued growth within Retail Banking. Increased focus on pension savings is expected to lead to greater demand for insurance and savings products. Given its current position in the Norwegian banking market, Retail Banking will face competition from both domestic and Nordic participants. Competition for the bank's high net worth customers is expected to increase, and there will be many competitors in the growing market for pension savings. Retail Banking is prepared to meet the competition through good customer relations, new loyalty programmes and a large distribution network.

1) Average balances. Based on nominal values.

Comments to the financial performance January - September 2005

- Satisfactory profits – return on BIS capital 22.7 per cent.
- Cost/income ratio improved to 58.3 per cent.
- Net interest income increased by NOK 243 million, mainly due to higher lending volume.
- Lending spreads represented 1.6 percentage points, including consumer finance. Deposit spreads averaged 0.8 percentage points.
- Average lending increased by NOK 35 billion or 11.5 per cent, referring primarily to well-secured housing loans. Deposits increased by NOK 9 billion or 5 per cent.
- Net other operating income increased by NOK 108 million or 5 per cent, mainly due to higher commission income from the sale of insurance products and mutual funds.
- Expenses were scaled back by 5 per cent through restructuring and streamlining measures.
- Loan losses remained at a low level.
- The volume of non-performing and doubtful commitments was at a satisfactory level.

Residential mortgages

NOK billion

Customers/markets

- Serving 2.2 million private individuals
- 433 000 housing loan customers
- 519 000 customers subscribe to the new DnB NOR loyalty programmes and 373 000 customers to Postbanken Leve
- 1 113 000 clients use the Group's Internet banks
- dnbnor.no and postbanken.no are Norway's largest Internet banks
- 37 million payment transactions were carried out through the Internet banks in the first three quarters of 2005, compared with 30 million in the corresponding period of 2004
- 779 000 customers have agreed to receive notices such as account statements via e-mail

1) Average performing loans

Organisation and distribution

Through Norway's largest distribution network, Retail Banking offers a wide range of financial products and services. Production, staff and support functions are largely centralised in cost-efficient joint units. The major distribution channels are:

- DnB NOR's, Postbanken's and Nordlandsbanken's branch offices
- The postal network
- Internet and telephone
- Investment Advisory Services

The cooperation with 16 regional savings banks involves the provision of technological solutions and distribution of the Group's products.

DnB NOR and Norway Post have a master agreement relating to the distribution of financial services through the postal network. The agreement is mainly based on transaction-specific prices and a common aim to increase the number of financial services distributed through the postal network. The existing agreement will remain effective until 31 December 2005. A new agreement has been signed by DnB NOR Bank ASA and Norway Post and will remain in force until December 2012.

- Postbanken and Norway Post have established joint service solutions provided through 1 194 in-store postal outlets, where customers can carry out everyday banking transactions in their local stores.
- 5.5 million payment transactions were carried out through these channels during the first three quarters of 2005, compared with 8.3 million transactions for the full year 2004.
- Norway Post has entered into an agreement with DnB NOR for the purchase and installation of up to 2 500 payment terminals for use in post offices and in-store postal outlets.

(Pro forma accounting figures prior to 2005)

New products

- First-home loan with interest rate ceiling, with the option to borrow the entire purchase amount at a favourable interest rate
- Credit line secured by residential property/real estate
- Special-term deposit account, minimum deposit NOK 1 million
- Debt financing of Vital products
- New mutual funds

Employees

The number of full-time positions within Retail Banking totalled 4 137 at the end of September 2005. Staff synergies corresponding to 677 full-time positions have been realised.

To achieve the targets for restructuring and staff cuts, measures must be fully implemented. The process must be carried out in a considerate manner in close cooperation with the employee organisations. More efficient production and distribution of services through new and better IT solutions, telephone and Internet banking will reduce the number of employees in the coming years.

Changing customer needs and the introduction of new products make it vital to upgrade professional skills. This will mainly be achieved by educating and relocating the existing workforce.

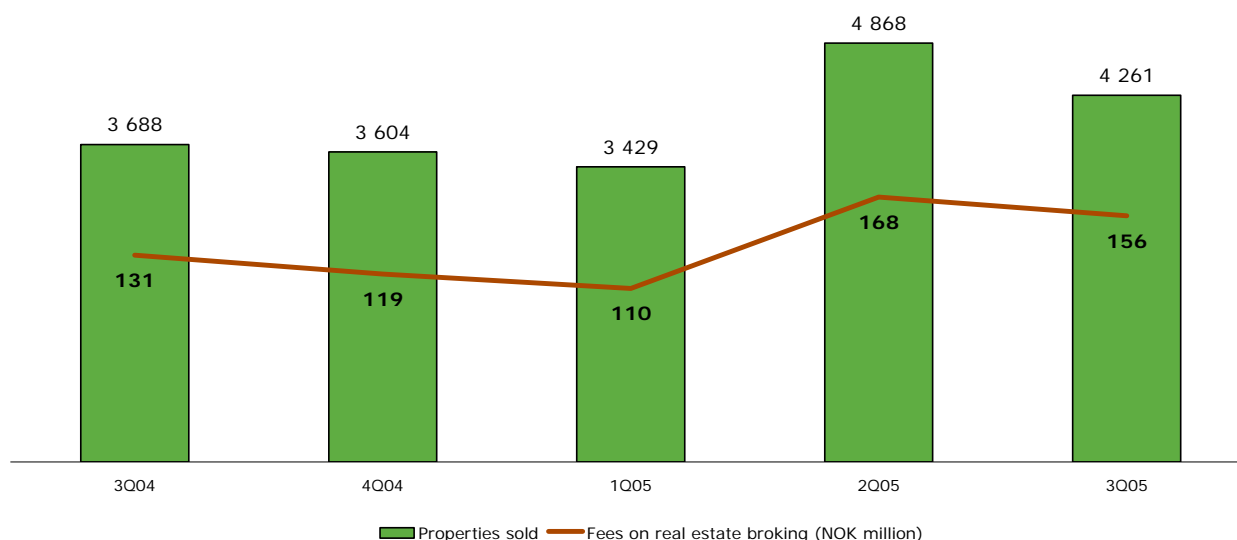

Cooperation with other group entities

Cross-selling of products is one of the major strengths of the DnB NOR Group. Through its distribution network Retail Banking offers:

- Asset management services (DnB NOR Asset Management)
- Life and pension insurance (Vital)
- Financial instruments (DnB NOR Markets)

Residential real estate broking

DnB NOR's real estate broking activities are coordinated in DnB NOR Eiendom AS, a market leader within the real estate broking business. DnB NOR Eiendom had 77 outlets located in DnB NOR branches as at 30 September 2005. In addition to fee income, real estate broking operations generate business in the form of residential mortgages and savings.

Market share, per cent ¹⁾						16	16

1) Management's estimates.

Consumer finance

- DnB NOR's card-based services and consumer finance activities are coordinated in DnB NOR Kort (an entity within DnB NOR Bank ASA).
- DnB NOR Kort's lending volume increased from NOK 9 762 million at end-September 2004 to NOK 10 559 million at end-September 2005.
- Consumer finance activities generated healthy profits in the third quarter of 2005.
- DnB NOR Kort is Norway's leading card issuer. As at 30 September 2005, the entity had issued more than 1.4 million credit and charge cards. Including debit cards, the DnB NOR Group had issued approximately 3.7 million cards.

Non-life insurance

Vital Skade was the first company in Norway to develop a totally integrated virtual insurance site where Internet banking customers can buy non-life insurance products (home, car, travel etc.). Products are sold on a commission basis. Vital Skade operates as an agent and assumes no risk on its own.

Vital Skade has entered into non-exclusive agreements with 13 academic associations offering non-life insurance products through specialised service centres. Premium income generated in Vital Skade for the first three quarters of 2005 totalled NOK 370 million, an increase of 24 per cent on the 2004 figure. Academic associations account for 47 per cent of total premiums. Sales through the Internet banking application continued to show strong growth compared with the January through September period in 2004, with total premiums of NOK 92 million, up from NOK 63 million in 2004.

Net profit before taxes totalled NOK 34 million for the first nine months, increasing from NOK 30 million in the corresponding period of 2004. Commission income increased from NOK 62 million in the first three quarters of 2004 to NOK 77 million in the corresponding period of 2005. Costs increased from NOK 30 million to NOK 43 million compared with the year-earlier period.

DnB NOR Markets

DnB NOR Markets is Norway's largest provider of a wide range of securities and investment banking services. DnB NOR Markets comprises the following units: FX/Treasury - Customers, FX/Treasury - Trading, Equities Sales/Research, Corporate Finance and Securities Services. The Group Treasury is organised within DnB NOR Markets though profits and losses for the unit are not recorded under this business area. Ottar Ertzeid, group executive vice president, is head of DnB NOR Markets.

DnB NOR Markets aims to be the leading investment bank for Norwegian and Norwegian-related customers, as well as international clients requiring services relating to Norway and the Norwegian krone.

DnB NOR Markets is a full-service investment bank with leading market positions in Norway. The business area has:

- A diversified business/revenues mix (products and customers)
- A sound mix of customer and trading activities
- Cost and capital-efficient operations

Comments to the financial performance in the first three quarters of 2005

- DnB NOR Markets achieved record-high revenues and profits in the first three quarters of 2005.
- The business area recorded a very satisfactory cost/income ratio and a sound return on equity.
- All merger synergies were fully realised in 2004.
- Total revenues increased by NOK 213 million, or 11 per cent.
- Market making/trading revenues decreased by NOK 59 million from a high level. The reduction was partly attributable to the significant narrowing of credit spreads compared with the year-earlier period.
- Customer demand for currency products remained strong.
- Brisk demand for capital-guaranteed savings products and direct investments in commercial property.
- Record-high activity within equities sales.
- Corporate finance showed healthy performance. Revenues increased from NOK 139 million for the first three quarters of last year to NOK 276 million one year later. The good results reflect a high level of activity within share issues, initial public offerings and advisory services.

Products and services

- Foreign exchange and interest rate derivatives.
- Securities and other investment products.
- Debt and equity financing in capital markets, as well as mergers and acquisitions and other advisory and corporate finance services.
- Custodial and other securities services.
- During the third quarter, DnB NOR launched new investment products including Private Equity Feeder Fund and Credit Linked Notes (CLN).

Distribution and cooperation with other entities

Maintaining a broad distribution network and effective cooperation with other business areas within the Group, such as Corporate Banking and Retail Banking, are key priorities for DnB NOR Markets. Customers are served through:

- Central units located in Oslo
- International offices (London, Singapore and New York) and 13 regional offices
- Electronic channels and the Internet
- Cooperating savings banks
- External agents

Customers and market shares

- DnB NOR Markets is Norway's largest investment bank with a market share in the first half of 2005 of 30 per cent in terms of revenues for Norwegian firms.
- The merger has enhanced the business area's market position within bonds, commercial paper, equities, equity derivatives and research.
- DnB NOR Markets was the largest equity brokerage house on Oslo Børs (the Oslo Stock Exchange) in the first three quarters of 2005 and strengthened its position within corporate finance during this period.
- Leading position within derivatives and structured products in Norway.
- 25 and 74 per cent respectively of customer trading in equity options and forward contracts on Oslo Børs was handled by DnB NOR Markets in the first three quarters of 2005.
- Approximately 40 per cent market share of capital-guaranteed equity-linked investment products.

(Pro forma accounting figures prior to 2005)

- Leading arranger of debt financing in capital markets for Norwegian borrowers.
- Leading within domestic securities services with settlement for most foreign members of Oslo Børs.
- An increasing number of customers use DnB NOR Markets as registrar in the Norwegian Central Securities Depository, with market shares of 57 per cent for limited companies and 33 per cent for bonds.
- DnB NOR Markets was named Best Equity House in Norway by Euromoney in July 2005.
- In September Global Finance presented DnB NOR with the "Best Foreign Exchange Bank in Norway" award.

Employees

- DnB NOR Markets has a staff of 530 full-time positions located in offices in Norway and abroad.
- DnB NOR Markets achieved the desired stability in staff levels and also recruited new employees within growth areas during the period.

Revenues within various segments - IFRS

Diversification effects	(8 820)	(4 017)		
Total	17 790	14 549		

Interest rate sensitivity

The value of financial investments recorded on and off the balance sheet is affected by interest rate movements. The table below shows potential losses for DnB NOR resulting from parallel one-percentage point changes in all interest rates. The calculations are based on a hypothetical situation where interest rate movements in all currencies are unfavourable for DnB NOR relative to the Group's positions. Also, all interest rate movements within the same interval are assumed to be unfavourable for the Group. In the trading portfolio, such losses will be charged to the accounts as they occur. In the banking portfolio, the losses will be amortised over the remaining maturity. The calculations are based on the Group's positions as at 30 September 2005 and market rates on the same date.

Potential losses for DnB NOR resulting from parallel one percentage point changes in all interest rates

The table does not include administrative interest rate risk and interest rate risk relating to non-interest-earning assets.

Life Insurance and Pensions

Description of the business area

Life Insurance and Pensions offers group pension schemes to businesses and the public sector. In the retail market, long-term savings alternatives are offered in the form of individual pension agreements and annuities. Bård Benum, group executive vice president, is head of Life Insurance and Pensions.

Life Insurance and Pensions comprises Vital Forsikring ASA including subsidiaries and the sister company Vital Link AS. Vital aims to be Norway's strongest entity within pension savings. Vital seeks continued growth within the company's business segments and aims to deliver competitive results to its owner and policyholders. Devoting further efforts to improving cost efficiency, providing top-quality advisory services, maintaining high levels of service and customer relationship management and serving as an attractive entry portal for customers into the DnB NOR Group will be instrumental in reaching these targets.

Financial results according to IFRS

As of 1 January 2005, Vital Forsikring ASA including subsidiaries and Vital Link AS are fully consolidated in the DnB NOR Group's accounts.

Profit sharing between policyholders and the owner in life insurance companies is based on special accounting regulations for such operations stipulated by Kredittilsynet (the Financial Supervisory Authority of Norway). Regulations relating to profit sharing between the owner and policyholders in life insurance companies limit the DnB NOR Group's access to revenues and assets from life insurance operations. In accordance with IFRS, life insurance operations are incorporated in the DnB NOR Group's accounts based on the same principles that apply to the rest of the DnB NOR Group. Any deviations resulting from differences between the special accounting regulations for profit sharing and IFRS are charged directly to the DnB NOR Group's equity.

On pages 53-58, the profit and loss accounts and balance sheets for Life Insurance and Pensions as included in the DnB NOR Group's accounts according to IFRS, are included.

Financial results according to NGAAP

The analyses on pages 59-61 are prepared on the basis of accounting principles according to Norwegian accounting legislation etc. (NGAAP).

1) For developments in the asset mix, return on assets and financial result in life insurance, see tables on pages 53, 54 and 57.

2) Including pre-tax profits to the owner of NOK 255 million from the sale of operations within non-life and group life insurance in the fourth quarter of 2004.

3) NOK 16 million was charged to the risk result for the third quarter of 2005 to strengthen disability provisions, compared with NOK 42 million in the corresponding period in 2004. Life Insurance and Pensions plans to strengthen the premium reserve by NOK 140 million to cover insurance claims in 2005.

4) In the fourth quarter of 2004, the administration result was charged with NOK 250 million in restructuring costs in connection with the merger between Vital Forsikring ASA and Gjensidige NOR Spareforsikring ASA.

5) See table on page 54.

Comments to the financial performance in first three quarters of 2005 – Life Insurance and Pensions

- Value-adjusted return on assets 6.0 per cent and recorded return on assets 5.2 per cent.
- A NOK 5.7 billion rise in solvency capital, to NOK 24.8 billion.
- 12 per cent growth in total assets, to NOK 193 billion.
- 18 per cent increase in total premiums due and a net inflow of transfers NOK 1.4 billion.
- A NOK 324 million rise in net profit.
- An 81 per cent increase in policyholders' funds from defined-contribution pension schemes compared with the figures at end-December.
- In the course of the fourth quarter, Vital will enter into an agreement with Norway Post on the most extensive defined-contribution pension scheme in the market. The scheme will cover 26 000 members and has an estimated annual premium of more than NOK 200 million.
- Preparations for the introduction of statutory occupational pension schemes are on schedule.
- Market shares by end-June are stable:
 - 39 per cent within unit linked operations
 - 49 per cent within traditional life insurance, excluding KLP (municipalities' pension funds)

Specification of profit for distribution – life insurance

<i>Amounts in NOK million</i>	3Q05	2Q05	1Q05	4Q04	3Q04	Jan. - Sept.	
						2005	2004
Profit for distribution	1 990	552	1 567	419	515	4 109	2 850
from operations subject to profit sharing ¹⁾	1 987	549	1 565	162	539	4 101	2 964
- Funds transferred to policyholders	1 636	289	1 247	(74)	280	3 172	2 107
- Profit for allocation to the owner and taxes	351	260	318	236	259	929	858
from operations not subject to profit sharing	3	3	2	257	(24)	8	(114)

- 1) Profit for allocation to the owner and taxes for operations subject to profit sharing in life insurance includes:
- return on equity, subordinated loan capital and the security reserve, calculated as the company's return on capital, less accrued interest on subordinated loans and allocations to the security reserve
 - a margin of policyholders' funds
 - a margin of effective risk premium adjusted for survival risk on contracts providing sufficient profits
- According to regulations, annual profit for allocation to the owner and taxes cannot exceed 35 per cent of profit for operations subject to profit sharing. If this figure is negative, the entire amount should be charged to the owner. Total profit to the owner and taxes also includes profits from operations not subject to profit sharing.

Products and organisation

Life Insurance and Pensions offers:

- Group pension schemes to businesses, adapted to customer needs for defined-benefit, defined-contribution and single premium pension schemes.
- Long-term savings alternatives in the form of individual pension agreements and annuities in the retail market.
- Products are offered with guaranteed returns or with a choice of investment profile (unit linked).
- Savings products from other units in the DnB NOR Group, including mutual funds from DnB NOR Kapitalforvaltning and equity-linked bonds from DnB NOR Markets.

The business area is represented in most parts of Norway through sales offices and provides services through DnB NOR and Postbanken's distribution networks and independent agents, as well as via the Internet.

Cooperation with other group entities

- By taking advantage of the strength of the DnB NOR Group's total distribution network, Life Insurance and Pensions is well positioned to enjoy continued market growth.
- Life Insurance and Pensions' growth in the retail market is not least due to the business area's extensive distribution network, where other business areas in the Group play a principal role.
- In the third quarter of 2005, other business areas accounted for 69.7 per cent of the sales of Life Insurance and Pensions' products in the retail market, compared with 52.8 per cent in the corresponding period of 2004.

Employees

Life Insurance and Pensions gives priority to retaining and developing a high level of expertise within insurance products, management and other relevant areas of competence.

Balance sheets and capital adequacy according to NGAAP

The analyses below are prepared on the basis of accounting principles according to Norwegian accounting legislation etc. (NGAAP). Tables marked "Life Insurance and Pensions" refer to life insurance operations including unit linked operations in Vital Link AS. Tables marked "life insurance" refer to operations in Vital Forsikring ASA including subsidiaries.

Kredittilsynet and the Ministry of Finance have not adapted solvency capital or capital adequacy regulations to IFRS. For the time being, solvency and capital adequacy calculations are based on rules for statutory accounts, which thus far are not allowed to be restated according to IFRS.

Subordinated loan capital and perpetual subordinated loan capital securities	2 483	2 482	2 468	2 449	2 496	2 662
Unrealised gains on long-term securities	3 586	4 183	3 637	3 935	3 692	2 842
Solvency capital	24 802	22 432	20 033	19 630	19 112	16 056
Buffer capital ²⁾	13 780	10 930	9 089	8 577	8 328	6 335

1) The table above shows the composition of and development in solvency capital. All these elements, with the exception of part of the security reserve, can be used to meet the guaranteed rate of return on policyholders' funds.

2) Buffer capital is equity in excess of the minimum statutory capital requirement and interim profits, additional allocations and the securities adjustment reserve.

Capital adequacy and solvency margin capital – life insurance - NGAAP

	30 Sept. 2005	30 June 2005	31 Mar. 2005	31 Dec. 2004	30 Sept. 2004	Pro forma 31 Dec. 2003
<i>Amounts in NOK million</i>						
Capital adequacy ¹⁾						
Total eligible primary capital	9 075	9 035	9 032	8 953	7 661	7 724
Capital adequacy ratio (%)	12.6	12.8	14.1	14.1	12.7	13.8
Core capital	6 818	6 806	6 803	6 801	5 497	5 390
Core capital (%)	9.4	9.6	10.6	10.7	9.1	9.6
Risk-weighted assets	72 239	70 689	64 220	63 325	60 566	56 151
Solvency margin capital ²⁾						
Solvency margin capital	10 351	10 307	10 308	10 238	8 777	8 838
Solvency margin capital exceeding minimum requirement	3 488	3 651	3 605	3 949	2 358	3 045
Solvency margin capital in per cent of solvency margin capital requirement (%)	151	155	154	163	137	153

1) Capital adequacy regulations regulate the relationship between the company's primary capital and the investment exposure on the asset side of the balance sheet. Life insurance companies are subject to a minimum capital adequacy requirement of 8 per cent.

2) Solvency margin capital is measured against the solvency margin requirement, which is linked to the company's insurance commitments on the liabilities side of the balance sheet. The solvency margin requirements for Norwegian life insurance companies are subject to regulations on the calculation of solvency capital requirements and solvency margin capital, as laid down by the Ministry of Finance on 19 May 1995.

Asset Management

Asset Management provides mutual funds and discretionary portfolio management services to Norwegian and other Nordic corporate clients, the public sector, private pension funds and retail customers. Øyvind Birkeland, group executive vice president, heads the business area.

Asset Management seeks to provide first-class returns on customer funds within the preferred risk profile and investment horizon. DnB NOR aspires to be the leading asset manager for customers in the Nordic region, providing sound long-term returns and a high level of service based on a thorough understanding of customer needs.

The first exchange-traded fund in Norway, DnB NOR OBX, was launched in the first quarter of 2005. The hedge fund operations of Absolute Return Investment AB were taken over in their entirety from Skandia Liv in April 2005.

The integration of products, services and the organisations is expected to result in annual cost synergies of NOK 110 million by the end of 2006. The initial integration process in 2003-2004 resulted in staff cuts of 71 full-time positions. In the first three quarters of 2005 synergies reduced staff by 11 full-time positions. In addition new preliminary vacancies reduced staff by eight full-time positions. Planned staff reductions in connection with the merger was 70 full-time positions. Staff reduction are thus ahead of target.

New mutual fund packages, the 'Save Smart' concept, launched in September 2005 were well received in the market. Hedge funds are a priority area in 2005. The new tax reform in Norway will be an incentive for mutual fund savings.

1) Calculated on the basis of recorded equity.

2) Assets under management at end of period.

(Pro forma accounting figures prior to 2005)

Comments to the financial performance in the first three quarters of 2005

- Commission income increased by NOK 44 million from the first three quarters of 2004 to the first three quarters of 2005. This was mainly due to growth in assets under management.
- Operating expenses in the first three quarters of 2005 were NOK 496 million, which was NOK 13 million below operating expenses in the corresponding period of 2004.
- Cost synergies representing NOK 58 million were achieved in the first three quarters of 2005, bringing total synergies from the DnB NOR merger to NOK 106 million so far.

Assets under management

NOK billion

1) Share of total assets in the institutional and retail market respectively, invested in bonds, fixed-income funds and money market funds.

(Amounts in NOK billion and per cent of total assets)

Changes in assets under management - net inflow

Amounts in NOK million	3Q05	2Q05	1Q05 ¹⁾	4Q04	3Q04	Jan. - Sept.	
						2005 ¹⁾	2004 ²⁾
Retail market	88	(668)	(572)	909	(480)	(1 152)	(871)

Total	3 583	(4 368)	6 526	(16 675)	799	5 741	2 027

- 1) Excluding dividends of NOK 1 446 million, of which NOK 446 million refers to retail and NOK 1 000 million to institutional clients.
- 2) Excluding dividends of NOK 1 821 million, of which NOK 779 million refers to retail and NOK 1 042 million to institutional clients.
- 3) The reduction was due to the termination of one large contract which, according to agreement, should have been terminated two quarters earlier.

Comments to changes in assets under management

- Assets under management increased by NOK 29.2 billion or 6.1 per cent in the first three quarters of 2005.
- There was a net inflow of funds from institutional clients of NOK 6.9 billion or 1.6 per cent and a net outflow from the retail market of NOK 1.1 billion or 2.7 per cent in the first three quarters of 2005.
- New institutional mandates were won in both Sweden and Norway.
- Market developments led to a NOK 39.6 billion increase in assets under management, representing 8.2 per cent measured in customers' base currencies.
- The appreciation of NOK against other currencies, especially SEK, reduced assets under management by NOK 16.2 billion or 3.4 per cent.
- During the first three quarters of 2005, Morgan Stanley's global equity index (MSCI World Net Div.) increased by 6.2 per cent measured in USD and by 14.4 per cent measured in NOK.
- The stock exchanges in Stockholm (OMX) and Oslo (OSEBX) climbed by 20.8 and 38.6 per cent respectively during the first three quarters of 2005.

Development in assets under management and commission income

1) Pro forma including Skandia Asset Management as from 1 January 2002

Investment returns on assets under management

- Returns on a number of major client portfolios and funds outperformed relevant benchmarks, including Vital Forsikring's total portfolio, as well as Norwegian equity and bond investments and major Swedish equity portfolios.
- Fund managers' specialisation has led to strong performance for several industry-specific funds (percentage point return in excess of benchmark in parentheses):
 - DnB NOR Global Health Care (3.9)
 - DnB NOR Nordic Technology (5.2)
 - DnB NOR Telecom (5.1)

Customers/markets

- Asset Management serves the Norwegian and Swedish savings markets, offering domestic and international asset management services.
- Brand names:
 - DnB NOR Kapitalforvaltning in the Norwegian institutional and retail markets
 - DnB NOR Asset Management and Carlson in the Swedish institutional and retail markets
- A leading position in the institutional market in both Norway and Sweden with around 470 institutional clients. The largest clients are Skandia Liv and Vital
- The number of mutual fund customers in Norway was more than 676 000 at the end of September 2005. The number of savings agreements exceeded 251 000.
- Market shares:
 - DnB NOR Kapitalforvaltning (mutual funds in Norway) 31.7 per cent (as at 31 Aug. 2005)
 - Carlson Fonder (mutual funds in Sweden) 1.3 per cent
 - Institutional market in Norway > 30 per cent
 - Institutional market in Sweden > 20 per cent

Products and services

- Mutual funds, hedge funds and absolute return products
- Discretionary portfolio management
- Management and monitoring of investment portfolios
- Asset allocation and risk management advisory services

Organisation

- Legal structure simplified through the merging of all operational asset management companies in Norway.
- Customer activity is concentrated in Norway and Sweden. In order to provide competitive global asset management, investment operations have also been established in London, New York and Hong Kong.
- A combination of regional and sector-oriented management teams with a presence in all major financial markets.
- Asset management services are provided through channels adapted to the various markets:

Retail customers in Norway

- DnB NOR's extensive network of branches and regional financial services centres
- Post offices and in-store postal outlets
- The Internet
- External channels including brokers, investment advisers and regional and local savings banks

Retail customers in Sweden

- Local distributors

Institutional markets in Sweden and Norway

- The business area's own sales force and, in Norway, through cooperation with Corporate Banking

Employees

- Staff cuts corresponding to 11 full-time positions and new vacancies corresponding to eight full-time positions in the first three quarters of 2005.
- 291 full-time positions at the end of September 2005.

Cooperation with other group entities

- DnB NOR's extensive network represents the major distribution channel in the Norwegian retail market.
- Asset Management and Corporate Banking cooperate in providing a complete range of financial services to corporate customers.
- Asset Management manages Vital's equity and bond portfolios.
- Asset Management cooperates with other group entities in developing products adapted to the various markets.

Capital ratio incl. 50 per cent of profit for the period (%)	10.4		10.2	

1) Perpetual subordinated loan capital securities can represent up to 15 per cent of core capital. The excess will qualify as perpetual supplementary capital.

2) Calculations of capital adequacy include a total of NOK 578 million in subordinated loan capital in associated companies, in addition to subordinated loan capital in the banking group's balance sheet.

3) Primary capital and nominal amounts used in calculating risk-weighted volume deviate from figures in the banking group's accounts as a different consolidation method ("pro rata consolidation") is used in calculating capital adequacy.

All figures are presented in accordance with rules prevailing at the time in question.

For information on capital adequacy in the DnB NOR Group, see page 27.

House prices and household liabilities

Corporates: domestic credit and gross capital formation, mainland

Corporates' interest-bearing debt and interest paid ¹⁾

Source: Norges Bank

1) For non-financial corporates excluding petroleum and international shipping.

2) Interest-bearing debt is defined as loans from domestic and financial institutions and from the bond and short-term paper markets. Cash surplus is defined as the sum of value added and wealth income less wages and tax. Interest expenses are deducted from the cash surplus to provide a measure of the sector's ability to make principal payments.
